Savini jason free download xbox one

If backers were upset about PS4 users being able to buy Savini Jason for \$6, this is really going to get under their skin!Yesterday, the long-awaited update for the Xbox version of Friday the 13th: The Game finally went live. Due to Microsoft taking longer to approve the update, it was last in line to get the patch which alleviates many glitches and bugs affecting the game.But along with the update came a special treat for some fans of the game lucky enough to notice. The "Savini Jason" skin also popped up in the Xbox store as a FREE downloadable add-on for the game. This skin was an exclusive preorder-only bonus meant to never go on sale after the release of the game, so some of the backers are not too happy. Gamers were quick to point out the issue to the game's official support account on Twitter.We're aware this is happening, Daniel, and we're looking into it.— F13 Game Support (@F13GameSupport) July 27, 2017Online, users who managed to get the DLC are saying that it's working just fine. We will see if ultimately Gun Media has Microsoft yank the skin from people who got it, but as that didn't happen during the similar PS4 glitch, it seems unlikely.As of this writing, some players online are claiming that the skin is still available to get for free. It's not showing up on my system, so I can't confirm that — but I already have Savini Jason for backing the game. If Savini Jason is still up, I'm not expecting it to be that way for much longer.Friday the 13th: The Game is available on Xbox One, PS4, and Steam. (Photo: Friday the 13th: The Game)A much-anticipated patch for Friday the 13th: The Game was the main thing that Xbox One players were hoping to receive, but some of them got that update and a bit more when the game's now less exclusive Savini Jason skin was available for a very short time.Out of nowhere, the Jason variation appeared through the Microsoft store and was free to download, though content has since been taken down. That didn't stop many players from getting it before the deal was removed, so if you've seen an influx of hellish Jason's prowling the game's maps on the Xbox One, it probably has something to do with this brief hiccup.The Savini Jason is a skin that was supposed to be exclusive to those who backed the game during the very early phases of development, but it's really much more than a skin. Calling it a skin would imply that it has purely cosmetic changes, and while it definitely changes the way that Jason looks, it also gives him his own set of strengths and weakness like the other Jason versions do.Since the game came out back in May, Savini Jason has been a point of contention for players due to the way that it was released and the individualized attributes that it came with. Several backers had issues receiving their bonus content, and the content also had a similarly brief sale on the PlayStation 4 version through the PlayStation store where players who bought it were permitted to keep it before the listing was removed. The Jason DLC showing up in-store was said to be an accident both times, but many players wondered why there would even be a listing for the content in the stores at all if it was supposed to be a backer-exclusive item, especially after the game's team firmly stated that it'd never be sold again.0commentsAs for the latest distribution of the content on the Xbox One, an initial tweet from the Illfonic, the game's developers, said that the sale was a mistake and those Xbox One players wouldn't be keeping the skin for very long. The tweet has since been deleted, and the one seen below is their current stance on the issue. Tweet was made in error without being provided proper information. A decision hasn't been made and a statement on this matter will comesoon — Illfonic (@IllFonic) July 28, 2017 Given that PlayStation 4 players got to keep their Savini Jason, it makes sense that Xbox One players will be able to as well. However, that would mean that PC players will be the only platform not to get an opportunity to download the content, but there's been no word on how that new issue will be approached at this time.(Photo: Friday the 13th: The Game)A much-anticipated patch for Friday the 13th: The Game was the main thing that Xbox One players were hoping to receive, but some of them got that update and a bit more when the game's now less exclusive Savini Jason skin was available for a very short time.Out of nowhere, the Jason variation appeared through the Microsoft store and was free to download, though content has since been taken down. SAVINI JASON KILLED Friday the 13th: The Game (PS4, Jul 27, · I just downloaded the Savini Jason for free on XBOX ONE. It should be free for Steam players. It was briefly available on PS4 and now it's for free on XBOX. WTF! People who didn't know about the kickstarter campaign should be given the opportunity one last time to get the DLC. I would be happy to pay for it. Free Tom Savini Skin For Xbox Players. On PS4 anytime I use the Savini skin i hear nothing but "OMG HOW DID YOU GET SAVINI JASON" So if you like that kind of attention, it can still feel special. I just tell them all my uncle works for Nintendo.Hello I had my code since Kickstarter but never used it Guess yes but not sure, and don't want to be banned or something like that If could have any inconvenience, also i have a friend that have it to, and could share me his account anyway It's the same as using a digital code for a game.Hope you enjoy it! Yeah, you won't get banned. Don't you worry about it. Enjoy playing as Savini! He's really fun, savini jason free download ps4. Nothing to worry about. If the code is legitimate which it sounds likethen you'll have him. Hey bro be glad you got your code! My GF and I backed the game together but broke up shortly before release, unfortunately we used her email and other info and she decided I keep the house and her debt and her dog and she took savini, she hasn't even installed the game but she refuses to let me have the savini code and buddy I ponied up a lot of money to back this game ,?Have fun! Thank you all!! Dude that sucks. But look at the bright side. You learned a valuable lesson. Don't mix your life with someone who isn't your spouse. And video games can be better for your life then you significant other sometimes. If you backed the game, then get in direct contact with Gun Media and talk to them about it. That's the only way you'll be able to maybe get a code if there's none in your email.You can post now and register later. If you have an account, sign in now to post with your account.
